# MAP VENT

VENTILATION GRILLES
PLASTIC • ALUMINIUM • STAINLESS STEEL

PRODUCT CATALOGUE

Select
HARDWARE

MAP Vent has long been established as one of the UK's leading brands of vents and grilles for trade and DIY markets. Now part of the Select Hardware product portfolio, MAP continues to lead the way in plastic, aluminium and stainless steel vents, providing ventilation and air circulation in buildings throughout the country.

MAP vents are ideal for providing air flow through a building, helping to reduce problems caused by stale air, dampness, smells and condensation.

Most MAP vents are available in bulk pack - ideal for trade and builders merchants or in attractive and informative retail packs featuring product information and installation guidance, ideal for retail markets.

Vents are available in a choice of materials, sizes and colours to suit most applications.

Size Guide

The sizes shown in this catalogue reflect the size of the opening the vent is designed to fit and not the physical dimensions of the vent.

As a rough guide, a 229 x 76mm (9 x 3") vent is designed to cover a single brick aperture; a 229 x 152mm (9 x 6") vent is designed to cover a double brick aperture and a 229 x 229mm (9 x 9") vent is designed to cover a triple brick aperture.

Adjustable 'Hit & Miss' Vent (with Fixed Flyscreen)

• Suitable for use in most domestic situations such as larders, cupboards and wardrobes.
• Integral flyscreen keeps out insects and spiders.
• Screws are concealed to provide a more attractive finish.
• Not suitable for venting gas appliances.
